Graphic design
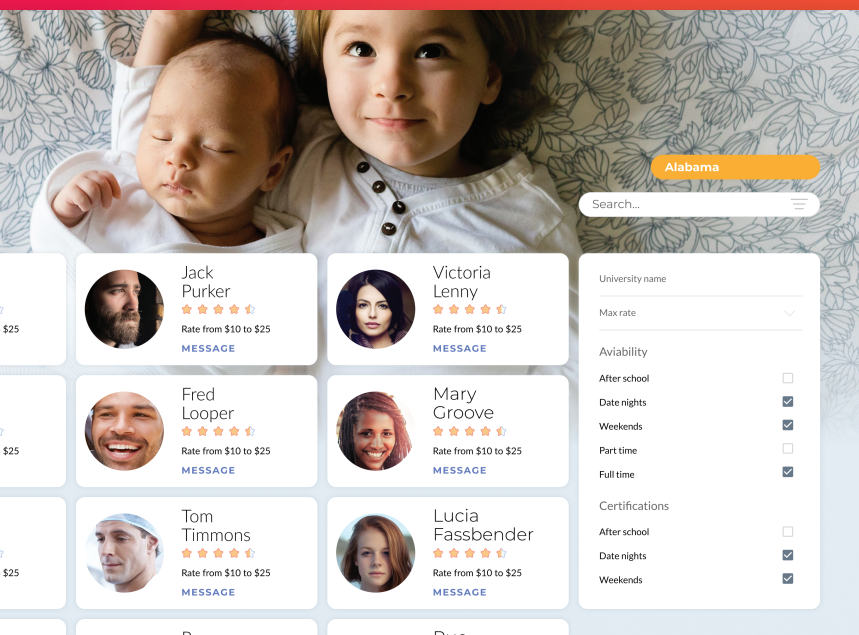

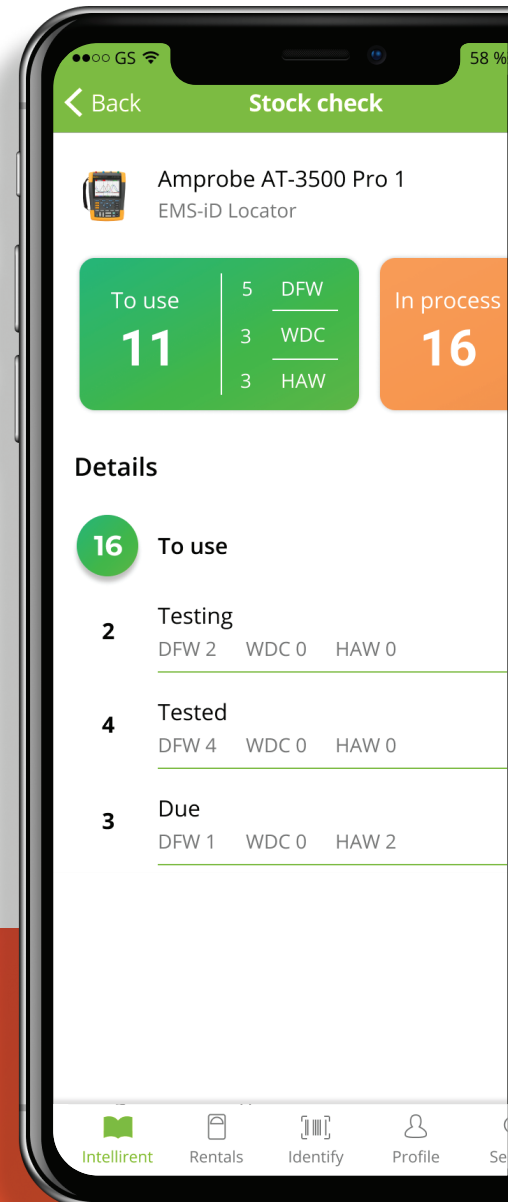

THE VERY FIRST ENCOUNTER WITH THE CUSTOMER

Graphics is a way of communication between the product and clients. It introduces app to users, tells what it is developed for, shows how to use it. Even if your product works properly client will not use it when he gets confused with its visual site.

Graphical design is the first step in communication between users and your business.

Do not underestimate it.

Why graphic design is so important in IT business?

User Experience and User Interface works together to prepare human-first and easy to be used interface. Graphical design is a strong tool.

Graphics outsourcing

DO YOU DEVELOP IT PRODUCT WITHOUT YOUR OWN GRAPHICAL TEAM? WHY DON'T YOU TRY OUTSOURCING?

Don't spend time on building a team

Building team is expensive and tiresome.

Adjust graphics worktime to project's needs

First steps of creating a product requires a lot of graphics work. After the beginning of implementation graphical team only supports you.

We are ready to work with managers and developers:

- to understand the needs of business and industry
- to prepare designs easy to be implemented

We use:

Figma

Jira

⊘ We design interface

FOR VARIOUS PLATFORMS
- web • tablet • mobile • handheld • kiosk

FOR VARIOUS BUSINESS
- industrial • business • commercial • marketing • social
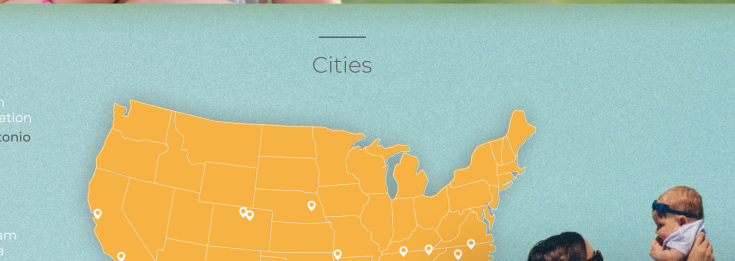

⊗ We don't design marketing materials

- brochures • folders • animated movies • websites • posters

erent About MommyMixer

It's Private

Your privacy is our business. Sitter profiles are only viewable to paying families and you are in control over who gets your contact information. We will never share your phone number or email and leave that up to you to decide.

Mixers That Roc

Meeting in person is priceless and give you an opportunity to meet person and get a feel for each sealing the deal. Mixers take plac shopping venue that usually prov members with an exclusive one-m to their merchandise and moms simply love them.

Parents

le solution to the
nd a quality
some back-ups?"

Best Deal

Having access to our exclusive group of families and sitters is a huge deal! The quality of MommyMixer's private network is unmatched and we are certain you will be over the moon with your experience.

Mobile Friendly

Did we mention the new Mommy site is mobile friendly? So if you're your tablet or phone, you are su able to get the job done quickly a effectively on our new site.

developing th

Work schedule

WORKING PROCESS USUALLY PROCEEDS ACCORDING TO THE FOLLOWING ORDER

1 — Meeting with the client

- discussion about business requirements and needs
- becoming familiar with the brand
- getting to know technologies you use

2 — Proof of concepts

- preparing three different designs of one or two pages

3 — Choosing concepts

- client chooses one design or decides to bound elements from different concepts

4 — Preparing design

- it may be the whole application or just a part of it
- number of pages differs according to the client's needs

5 — Preparing documentation

6 — Implementation

We do not abandon you after the end of the design. Did you forget about one or two icons? No problem, we will deliver them the next day.
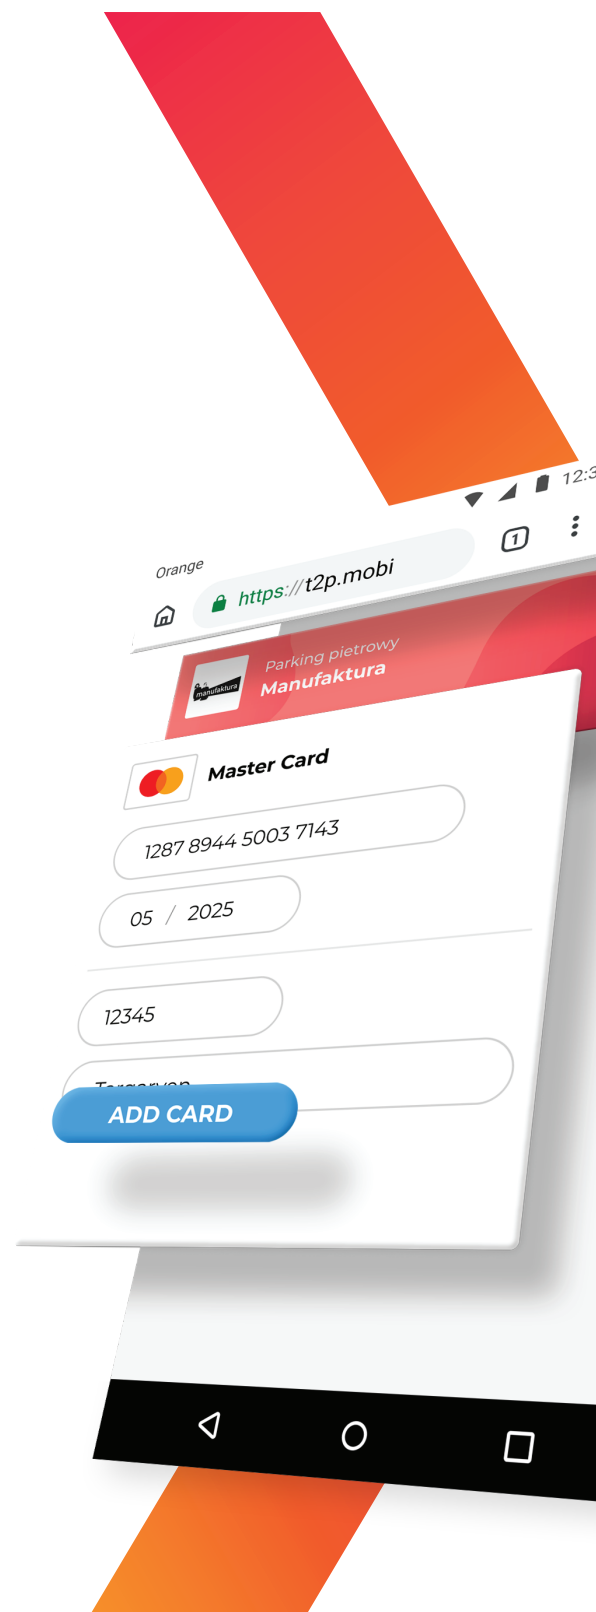

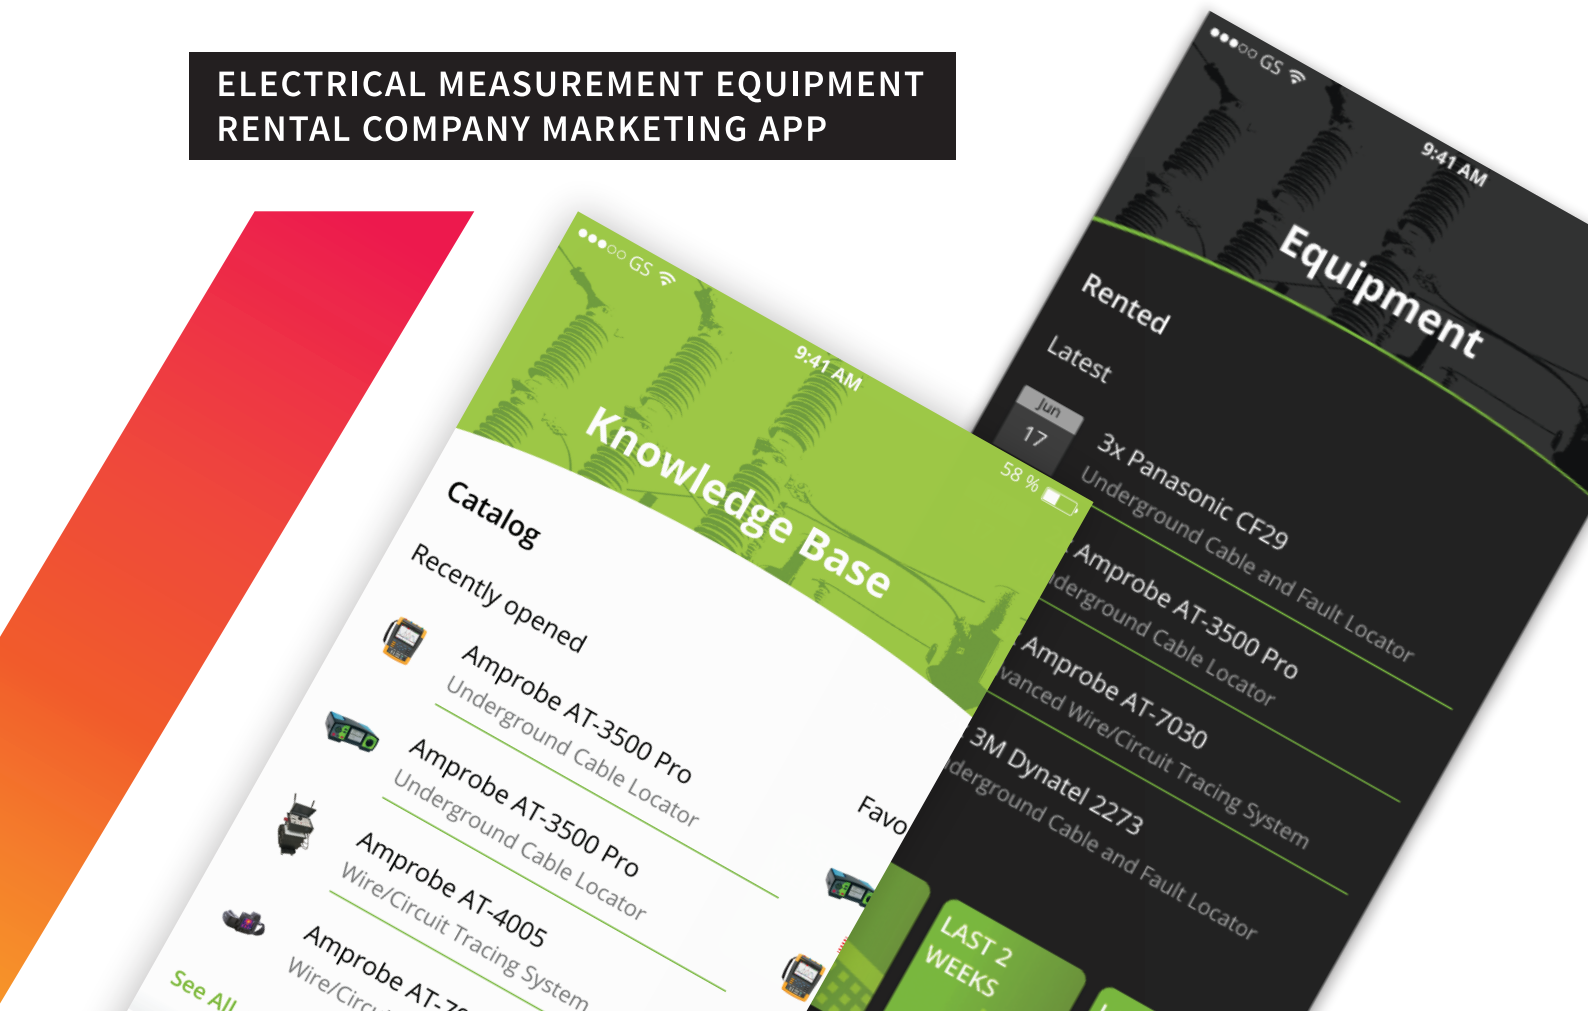

Mobile design

PARKING APP
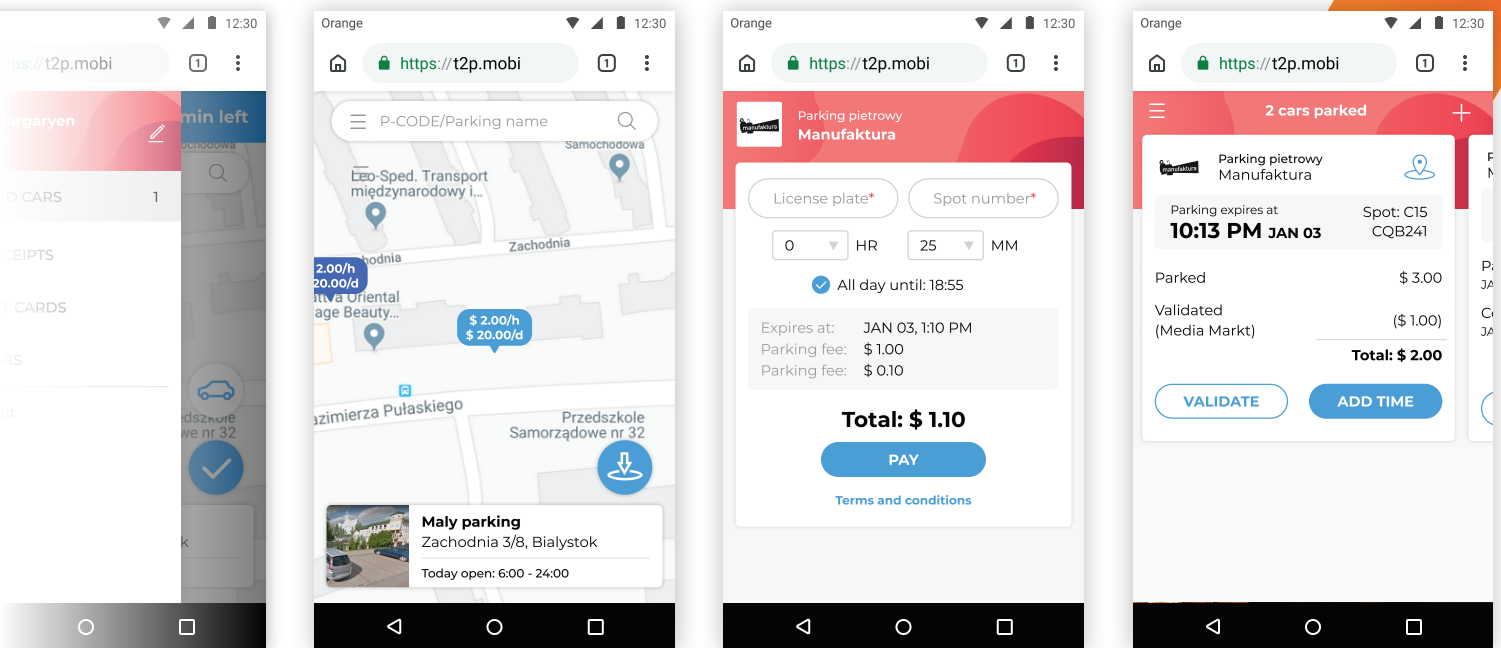

ELECTRICAL MEASUREMENT EQUIPMENT RENTAL COMPANY MARKETING APP

What we deliver

THE DESIGN IS COMPLETED. WHAT THE CLIENT GETS? THE DOCUMENTATION INCLUDES:

Design

All screens are presented on a diagram in Figma software. It explains the flow of selected actions.

Style guide

It is a document which helps developers implement interface in a right way. It includes a list of fonts, colors, components.

Mini printed folder with designs

It is not a marketing material. It just helps investor understand what he was delivered.

Prototype (OPTIONAL)

Prototypes makes static images clickable. You may play prototype on both web or mobile screen and discover the application design as if it was already implemented.

**It's not the end.
We will help you, your managers and developers as often as you need.**

We can communicate directly with every team member.
